

ATTENTION ALL MORAY SCHOOLS YOUR SUPPORT IS VITAL!

REAP – Moray's long established environmental charity – has *applied* for funding to deliver **Energy Education** to all Moray schools over a 3 year period, **supported by Moray Council**.

Curriculum based, practical, progressive learning from P7 to S6

In a world heavily dependent on energy, we face the challenges of rising fuel costs, finite resources and climate change...

...isn't it time to switch on to energy education?

Would you like to equip your pupils with the tools to deal with these challenges in school, at home and in their communities?

IF WE SECURE FUNDING, REAP WILL OFFER ALL MORAY SCHOOLS:

- 3 Dedicated Reap Energy Officers for Moray schools
- Fully funded curriculum training for teachers
- Classroom materials
- Practical projects for pupils from P7 to S6
- Inter school activity
- How to improve energy bills in school, at home & in the community
- How to calculate carbon emissions
- Summer schools
- Engagement with the energy industry
- Advice on funding
- Improved networking with support agencies
- Career & enterprise opportunities for pupils

HELP US TO HELP YOU!

To secure the funding, we need Moray schools to indicate their interest in and support for Energise! We are asking you to **EMAIL AN EXPRESSION OF INTEREST** letter to us at energise@reapscotland.org.uk. If you would like to talk to someone in more detail about our proposed project, contact REAP in Keith on 01542 880200.
